OTA-Signal-Protocol-and-Malicious-Altered-Mimick-Detection

Kewei Chen

1. Documentation: Is the artifact/code sufficiently documented?

Rate from 0% to 100%, where 0% means "documentation is completely insufficient" and 100% means "documentation is absolutely sufficient". If you need to assess both a dataset and tools, please take the average and comment below. In assessing tools, please consider if they are easy or difficult to install/set up and get to run. In assessing datasets, please consider if the meta data is sufficient.

Choices are:
- **1.** 0%
- **2.** 20%
- **3.** 40%
- **4.** 60%
- **5.** 80%
- **6.** 100%

Documentation: Comment on/explain your choice above:

80%.The github repo is sufficient, however it lost the part for tuning the threshold values.

2. Completeness: Do the submitted artifacts/code include all of the key components described in the report?

Rate from 0% to 100%, where 0% means "does not include any key components" and 100% means "includes all key components".

Choices are:
- **1.** 0%
- **2.** 20%
- **3.** 40%
- **4.** 60%
- **5.** 80%

- **6.** 100%

Completeness: Comment on/explain your choice above

100% The git repo contains all datasets we need and diagrams for running the code.

3. **Exercisability: Do the submitted artifacts/code include the scripts and data needed to run the experiments described in the paper, and can the software be successfully executed?**

Rate from 0% to 100%, where 0% means "the scripts/software cannot be successfully executed and/or no data is included" and 100% means "the artifact includes all necessary scripts/software and data, and scripts/software (if present) can be successfully executed".

Choices are:
- **1.** 0%
- **2.** 20%
- **3.** 40%
- **4.** 60%
- **5.** 80%
- **6.** 100%

Exercisability: Comment on/explain your choice above

The matlab code can be successfully executed on my computer.

4. **Results attainable: Does the artifact/code make it possible, with reasonable effort, to obtain the key results from the artifact/code?**

Rate from 0% to 100%, where 0% means "no results can be obtained" and 100% means "all results can be obtained".

Choices are:
- **1.** 0%
- **2.** 20%
- **3.** 40%
- **4.** 60%
- **5.** 80%
- **6.** 100%

Results attainable: Comment on/explain your choice above

Plots in the report are available by running the code.

5. **Results completeness: How many key results of the paper/report is the provided code meant to support?**

   Rate from 0% to 100%, where 0% means "the artifact is meant to support no key results" and 100% means "the artifact is meant to support all key results".

   Choices are:
   - **1.** 0%
   - **2.** 20%
   - **3.** 40%
   - **4.** 60%
   - **5.** 80%
   - **6.** 100%

   ## Results completeness: Comment on/explain your choice above

   The provided code contains all the key results shown in the paper.
